

## Statistics on Capacity/Bandwidth Services (2011 – 2014)

### Statistics on Capacity/Bandwidth Services

[Scroll to view >](#)

CATEGOR Y <sup>1</sup>	Jun 2011	Dec 2011	Jun 2012	Dec 2012	Jun 2013	Dec 2013
<b>Local Leased Circuits (LLC)</b>						
Total Capacity of LLC Circuits Sold <sup>2</sup> (in Mbps)	539,900	747,400	997,500	1,170,500	1,570,400	1,990,800
Total Number of LLC Circuits Sold <sup>3</sup>	24,100	23,500	21,200	21,400	20,500	17,900
<b>International Private Leased Circuits (IPLC)</b>						
Total Capacity of IPLC Circuits Sold <sup>2</sup> (in Mbps)	901,600	1,266,100	3,212,600	3,057,500	3,339,000	4,478,400
Total Number of IPLC Circuits Sold <sup>3</sup>	3,700	4,600	5,800	5,100	5,500	3,300
<b>International Internet Capacity<sup>4</sup></b>						
Total International Internet Capacity (in Mbps)	836,300	1,266,100	1,325,900	1,547,700	1,639,200	2,294,500
<b>International Transmission Capacity Owned<sup>5</sup></b>						

<b>CATEGOR Y<sup>1</sup></b>	<b>Jun 2011</b>	<b>Dec 2011</b>	<b>Jun 2012</b>	<b>Dec 2012</b>	<b>Jun 2013</b>	<b>Dec 2013</b>
Total Internatio nal Transmissi on Capacity Owned (in Mbps)	4,294,80 0	5,807,80 0	7,226,40 0	7,824,30 0	8,483,60 0	10,376,10 0
- Submarin e Cable (in Mbps)	4,173,00 0	5,686,50 0	6,994,10 0	7,569,10 0	8,212,70 0	10,182,80 0
- Others (in Mbps)	121,700	121,300	232,400	255,300	270,900	193,300

All figures are rounded to the nearest hundred.

<sup>1</sup> With effect from Jun 2009, statistics on Capacity/Bandwidth services will be updated on a half-yearly basis every June and December.

<sup>2</sup> Total capacity of circuits sold refers to the sum of retail capacity sold to end-users and wholesale capacity sold to operators.

<sup>3</sup> Total number of circuits sold refers to the sum of retail circuits sold to end-users and wholesale circuits sold to operators.

<sup>4</sup> International Internet Capacity refers to the total activated bandwidth/capacity owned by operators licensed in Singapore to carry Internet traffic. This figure excludes bandwidth/capacity owned by overseas operators transiting traffic through Singapore.

<sup>5</sup> International transmission capacity refers to the total activated bandwidth/capacity owned by operators licensed in Singapore to provide all forms of international bandwidth/capacity services, including IPLC, international managed data network services, Internet connectivity etc. This figure excludes international transmission capacity owned by overseas operators transiting traffic through Singapore.
