

ENTROPICA LABS

DOING THE MOST WITH QUANTUM COMPUTERS TODAY

Building solutions for industry, we approach algorithmic design using the fundamentals of physics and applied mathematics to crack the hardest and most complex problems.

Models

Algorithms

Software Tools

QUANTUM

Education

Supporting partners at all levels to navigate through the quantum landscape

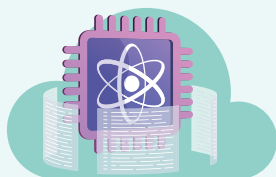

Identification

Use cases within organisations across different sectors

Application

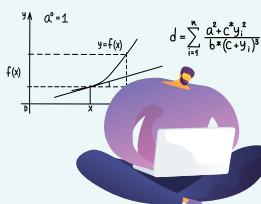

Testing, benchmarking, and deploying classical & quantum optimisation algorithms for industry solutions

Our approach to useful quantum computing

Use Cases

Encoded on Classical, Quantum & Hybrid Cloud Hardware

Entropica Optimisation Suite

Our Proprietary Quantum Platform

Solutions

Across Various Industries
