INTERACT AI

Generative AI virtual human conversation platform

Efficiently provides learners with simulated real-life scenarios
to practise and improve interpersonal communication

Training - Healthcare

Training - Service Industry

Financial Services

Training - Job Interview

Hello

Hello, how can I help you?

I need advice for a job interview

Sure. Any specific area of advice?

Like, how formally do I dress?

What role are you applying for and which industry…

Training - Education

Trains professionals through AI & Machine Learning
by mimicking real human conversation for interactive and immersive discussions
between learners and virtual humans

Recalls essential information accurately
for high-quality, meaningful and natural conversations

Empowers non-technical users without NLP expertise
with user-friendly platform and minimal input requirement

Enables learners to practise and gain confidence
in real-life scenarios, and for trainers who create the scenarios

Ideal for communication-based organisations
including medical institutions, community health centres,
airlines, financial institutions, customer service industries and teachers
