

# SBF-SLA SMEs GO DIGITAL: DIGITAL FORUM FOR LOGISTICS SECTOR

19 July 2019, Friday 9.00am-12.30pm, SBF Centre

Jointly organised by:

In Collaboration with:

Supported by:

The Logistics industry is a critical enabler of Singapore's economy and our everyday lives. To achieve better synergies in our industry transformation over the next few years, the Government announced the \$4.5 bil Industry Transformation Programme in Budget 2016.

Join us in this Digital Forum for the Logistics sector to learn more about the various initiatives, solutions and support available for you to digitally transform your business.

## Industry Transformation Map (ITM)

Industry Transformation Maps (ITMs) sets out the plan to transform Singapore's Logistics Industry to capture the growth opportunities, while dealing with the challenges that the industry will face such as limited land for new facilities, slowing local employment growth, and increased competition from the region.

## Exhibition On Solutions

- A\*STAR Ready-To-Go Tech Solutions
- IMDA Pre-Approved Solutions
- E-Invoicing
- Networked Trade Platform (NTP)
- E-Payment
- Etc.

## Industry Digital Plan (IDP)

The IDP works as a guide to provide step-by-step advice to help SMEs assess their digital readiness and identify digitalisation opportunities, as well as plug skill gaps in their workforce. It aims to provide the broad community of logistics SMEs a roadmap of digital solutions that are specific to enhancing logistics operations and businesses.

## Consultation Clinics

The SME Digital Tech Hub is a dedicated hub to complement the SME Centres and provide specialist advice on areas such as data analytics, cybersecurity and internet-of-things (IOTs). Consultants at the SME Digital Tech Hub will guide progressive SMEs seeking to transform their businesses on advanced solutions and help them leverage digital technologies.
