

PEPPOL-READY SOLUTION PROVIDER ACCREDITATION SCHEME

Version: V1.0

Approved on: Oct 2022

INTRODUCTION

This guide is intended to provide an overview of the Peppol-Ready Solution Provider Accreditation process and criteria for parties interested to become an IMDA-accredited Peppol-Ready Solution Provider (PRSP) in Singapore. Peppol-Ready solutions are solutions (such as accounting, ERP and SCM) which are connected to the InvoiceNow network where business users can send and receive invoices through the network. The solution providers can build such capabilities natively (i.e. by becoming an AP) or with an intermediary (i.e. through a third-party AP).

The PRSP accreditation is valid for 12 months from the date of confirmation of the accreditation. All PRSPs must monitor your PRSP accreditation expiration date and reach out to IMDA to start the renewal process at least 1 month before the expiration date.

PEPPOL-READY SOLUTION PROVIDER CRITERIA

The tables below describe the criteria to become an IMDA-accredited PRSP. Please note that preferred criteria are not mandatory in the assessment to become an IMDA-accredited PRSP, but we encourage you to have your solution ready for them.

S/N	Mandatory Criteria	Description
1.	<p>Your solution must be able to register the business user on the Singapore Service Metadata Publisher (SMP) through an IMDA certified Access Point. Once registered, the Peppol ID will be listed in the Singapore Peppol Directory.</p> <p>https://www.peppoldirectory.sg</p> <p>Please take note that user's explicit consent must be obtained before user can be registered on the InvoiceNow network.</p>	<p><u>First-time application</u></p> <p>PRSP is required to do a live product demonstration of the solution's InvoiceNow registration process of your customer.</p> <p><u>Renewal of application</u></p> <p>PRSP is expected to provide screenshots of your solution's InvoiceNow registration process of your customer.</p>

¹ Solution may include third party plugin which provides seamless user experience without manual handling of data (e.g. file import or export) outside the solution.

S/N	Mandatory Criteria	Description
	<p>The registration of a business user must be completed within 3 working days from the time of the user's request to the time when the user is successfully registered on the SMP.</p>	
2.	<p>Your solution must be able to send invoice on the InvoiceNow network through an IMDA-accredited Access Point.</p> <p>Please ensure that you can demonstrate the sending of invoice via your solution with a valid test account.</p> <p>There should be no human intervention during invoice data transmission from your solution to the Access Point.</p>	<p><u>First-time application</u></p> <p>PRSP is required to do a live product demonstration of the solution's invoice creation and sending process. This includes sending a live test invoice to IMDA's demo account.</p> <p><u>Renewal of application</u></p> <p>PRSP is expected to provide screenshots of your solution's invoice creation and sending process.</p>
3.	<p>Your solution must be able to receive invoice from the InvoiceNow network through an IMDA-accredited Access Point and display the invoice correctly.</p> <p>Please ensure that you can demonstrate the receiving of invoice via your solution with a valid test account.</p> <p>There should be no human intervention during invoice data transmission from the Access Point to your solution.</p>	<p><u>First-time application</u></p> <p>PRSP is required to do a live product demonstration of the solution's invoice receiving process. This includes receiving a live test invoice from IMDA's demo account.</p> <p><u>Renewal of application</u></p> <p>PRSP is expected to provide screenshots of your solution's invoice receiving process.</p>
4.	<p>Your solution must be able to capture and maintain the Peppol IDs of your users' business partners (i.e. their customers and /or supplier).</p>	<p><u>First-time application</u></p> <p>PRSP is required to do a live product demonstration of the solution's ability to capture and maintain the Peppol IDs of your users' business partners.</p> <p><u>Renewal of application</u></p>

S/N	Mandatory Criteria	Description
		PRSP is expected to provide screenshots of your solution's ability to capture and maintain the Peppol IDs of your users' business partners.

S/N	Preferred Criteria	Description
