ANNEX 1

1. PROVISION OF POINT-TO-POINT CONNECTIONS

- 1.1. The RL shall not use any Point-to-Point Connection for the purpose of providing fibre-based broadband services to Residential End-Users.
- 1.2. Where a Point-to-Point Connection is provided to the RL for the purpose of Mobile Network Deployment, the A-end shall be located at any of the RL's Exchanges and the B-end shall be located at a Mobile Hub, or vice-versa.
- 1.3. Where a Point-to-Point Connection is provided to the RL for the purpose of providing an Enterprise Service:
 - (a) the RL shall use that Point-to-Point Connection to supply one (1) Enterprise Service to one (1) Enterprise Customer at the relevant Non-Residential Address. For the avoidance of doubt, the RL shall not use the same Point-to-Point Connection to provide more than one (1) Enterprise Service to the same Enterprise Customer at the same Non-Residential Address;
 - (b) the RL must provide the address of Non-Residential Premise as the handover location; and
 - (c) the RL shall procure that no Enterprise Customer shall use the Point-to-Point Connection to subsequently resell or otherwise supply broadband services to Residential End-Users or Non-Residential End-Users, or to any NBAP location.

2. PROVISION OF MOBILE POINT-TO-POINT CONNECTIONS

- 2.1 The RL acknowledges and agrees that the Mobile Point-to-Point Connections provided under this Agreement shall be used only for the purpose of Mobile Network Deployment by connecting to mobile base transmission stations that belong to the RL.
- 2.2 Where a Mobile Point-to-Point Connection is provided to the RL under this Agreement:
 - (a) the RL shall not use the Mobile Point-to-Point Connection for the purpose of providing any fibre-based broadband service to Enterprise Customers or Residential End-Users or any NBAP Location; and
 - (b) the RL shall be allowed to use the Mobile Point-to-Point Connection for the purpose of providing public cellular mobile telecommunication services to Direct End-Users, and who are connected to the RL's mobile network.

Minimum Volume Commitment for first 24 Months

- 2.3 The RL shall fulfil the minimum number of Mobile Point-to-Point Connections ("**Minimum Volume Commitment**", or "**MVC**") and the minimum revenue to be generated in terms of cumulative MRC billed in respect of Mobile Point-to-Point Connections ("**Minimum Revenue Commitment**", or "**MRVC**") that is indicated in the below table by no later than the expiry of twenty-four (24) months commencing from the Effective Date (the "**Commitment Period**").

Minimum Volume Commitment	Minimum Revenue Commitment
800 Mobile Point to Point Connections	\$3.5 million

- 2.4 The RL hereby undertakes to refrain from backloading its orders to the last 12 months of the Commitment Period for the purpose of fulfilling the MVC. To this end, the RL shall make reasonable efforts, but is under no obligation, to submit orders for an average of 40 Mobile Point-to-Point Connections per month during the Commitment Period. Notwithstanding anything in this Agreement, NLT shall not be obliged to provision more than 50 Mobile Point-to-Point Connections per month during the last six (6) months of the Commitment Period.
- 2.5 The RL shall fulfill the MVC and the MRVC specified above by the last day of the Commitment Period. The RL acknowledges that NLT is only able to offer the charges set out in Annex 2 on the condition that the MVC and the MRVC are met, and the RL hereby agrees to pay an additional payment in the event that the RL fails to meet the MVC and MRVC at the end of the Commitment Period (or such earlier date of cessation of the Agreement pursuant to termination by the RL) (the “**Additional Payment**”). The Additional Payment shall be calculated according to the below formula:

$$A = (MRVC - B)$$

- Where A = Amount of Additional Payment payable for failure to meet the MRVC within the Commitment Period
- B = Cumulative MRC billed during the Commitment Period, including total MRC and Early Termination Charge billed in respect of Mobile Point-to-Point Connections which are terminated prior to the expiry of the Commitment Period

- 2.6 Subject to Clause 2.5, NLT shall calculate and issue an invoice for the Additional Payment based on the total cumulative MRC billed to the RL as of the last day of the Commitment Period, or such earlier date of cessation of the Agreement pursuant to termination by the RL (as the case may be). For the avoidance of doubt, interest payable on overdue amounts provided for in the relevant Schedules of the Approved ICO (including but not limited to Schedule 16) shall apply to any part of the Additional Payment which is overdue.

Minimum Volume Commitment after 24 Months

- 2.7 The RL shall maintain the Minimum Volume Commitment throughout the remainder of the Initial Term after the Commitment Period.
- 2.8 Commencing after the last day of the Commitment Period, NLT shall perform checks on the total number of active Mobile Point-to-Point Connections on the last day of each calendar month during the remainder of the Initial Term. The last day of each calendar month after the Commitment Period shall hereafter be referred to as a “**Check-In Date**”.
- 2.9 In the event that the total number of active Mobile Point-to-Point Connections on a Check-In Date falls below the Minimum Volume Commitment, the RL hereby agrees to pay an additional payment that is equivalent to the difference between the total aggregate Monthly Recurring Charge which would have been payable during the relevant calendar month had the RL met the Minimum Volume Commitment, and the total aggregate Monthly Recurring Charge which was actually invoiced to the RL during the said calendar month (the “**Check-In Payment**”). An illustration of the calculation method is set out in **Annex 8**.

- 2.10 NetLink Trust shall issue an invoice to the RL for the total Check-in Payment payable over each three-month period commencing from the expiry of the Commitment Period, and payment shall be made in full to NLT within 30 days from the date of NLT's invoice. For the avoidance of doubt, NLT shall issue monthly bills for the MRC payable for Mobile Point-to-Point Connections notwithstanding anything in this Agreement, and interest payable on overdue amounts provided for in the relevant Schedules of the Approved ICO (including but not limited to Schedule 16) shall apply to any part of the Check-in Payment which is overdue.
- 2.11 In the event that the total number of active Mobile Point-to-Point Connections on a Check-In Date exceeds the Minimum Volume Commitment, NLT agrees to pay the RL a rebate that is equivalent to the difference between the total aggregate Monthly Recurring Charge for the active Mobile Point-to-Point Connections that was actually invoiced to the RL during the relevant calendar month, and the total aggregate Monthly Recurring Charge that would have been payable by the RL for the active Mobile Point-to-Point Connections during the calendar month based on the volume tier monthly charge that applies according to the table set out below (the "**Check-In Rebate**"):

No. of active Mobile Point-to-Point Connection on the relevant Check-in Date	Volume Tier Monthly Charge for each Mobile Point-to-Point Connection
Minimum volume of 800	\$450
801 – 1000	\$400
1001 – 1,200	\$350
> 1,201	\$320

An illustration of the calculation method is set out in **Annex 8**.

- 2.12 The Check-In Rebate for each three-month period commencing from the expiry of the Commitment Period shall be credited to the RL's account and reflected in the next invoice issued by NLT.

Rebate during first 24 Months

- 2.13 The RL shall be eligible to receive an early rebate in the event that the RL exceeds the Minimum Volume Commitment any time before the expiry of the Commitment Period ("**Early Rebate**"), provided always that:
- (a) NLT shall only be liable to pay out the Early Rebate in respect of the first time that the RL exceeds the Minimum Volume Commitment during the Commitment Period;
 - (b) the Early Rebate shall be calculated based on the total number of Mobile Point-to-Point Connections that are active as of the last day of the calendar month during which the RL exceeded the Minimum Volume Commitment ("**Early Check-in Date**");
 - (c) in the event that the RL fails to meet the MRVC at the end of the Commitment Period (or such earlier date of cessation of the Agreement pursuant to termination by the RL), the RL shall reimburse NLT the Early Rebate that has been credited to the RL's account; and
 - (d) nothing in this paragraph shall affect the RL's obligations under paragraphs 2.3 – 2.5 of this Annex 1.
- 2.14 The Early Rebate shall be equivalent to the difference between the total aggregate Monthly

Recurring Charge for the active Mobile Point-to-Point Connections that was actually invoiced to the RL during the period commencing on the Effective Date and ending on the Early Check-in Date, and the total aggregate Monthly Recurring Charge that would have been payable by the RL for the active Mobile Point-to-Point Connections during the aforementioned period based on the volume tier monthly charge that applies according to the table set out in paragraph 2.11 of this Annex 1.

- 2.15 The Early Rebate shall be credited to the RL's account and reflected in the next invoice issued by NLT.
- 2.16 For the avoidance of doubt, NLT's assessment on whether RL has maintained the Minimum Volume Commitment throughout the Initial Term shall be based on the number of Mobile Point-to-Point Connections that are active on the last day of the Commitment Period, and on the last day of each calendar month during the remainder of the Initial Term, commencing after the last day of the Commitment Period. NLT shall not have any regard to the length of time for which each Mobile Point-to-Point Connection has been active.
- 2.17 In the event of any delays in the provisioning of Mobile Point-to-Point Connections due to circumstances beyond the reasonable control of NLT and its suppliers and contractors, NLT shall not be liable to reimburse the RL for any loss in the Check-In Rebate or Early Rebate payable to the RL, or any part of the Additional Payment or Check-In Payment that has been paid to NLT.

3. PROCEDURE FOR REQUEST FOR SERVICES

- 3.1. The RL shall submit a request for a Connection ("**Request**") via email using the form set out in **Annex 5**. Within one (1) Business Day of receiving the Request, NLT will notify the RL on whether the Request has been accepted or rejected by NLT. Where the Request has been rejected, NLT shall inform the RL of the reason for the rejection.
- 3.2. Where the Request is accepted by NLT, NLT shall conduct a desktop study to evaluate the feasibility of supplying the Connection, and shall issue a desktop study report on the details of the proposed deployment of the Connection, which may include (but is not limited to) the following information:
 - (a) Distance of the proposed fibre route; and
 - (b) The theoretical signal loss applicable for the proposed fibre route.
- 3.3. In the event that the RL does not accept the desktop study report, and decides to cancel the Request, Cancellation Charges as set out in Annex 2 shall apply.
- 3.4. In the event that the RL accepts the desktop study report, and decides to proceed with the Request, the RL shall notify NLT of its acceptance via email.
- 3.5. Subject to the RL's acceptance of the desktop study report and any charges to be imposed by NLT on the RL on Cost-Oriented Basis, NLT shall conduct a site survey to assess the cable routing for each Connection. NLT shall thereafter provide a quotation of any applicable one-time Installation Charge ("**OTC**") for digging or trenching work prior to fulfilling the said order ("**Quotation**").
- 3.6. NLT shall commence the fibre deployment subject to the following conditions:
 - 3.6.1. The RL agrees to the OTC for digging or trenching work indicated in the Quotation pursuant to **paragraph 3.5** above;

- 3.6.2. The RL must provide its acceptance of the service activation period indicated by NLT and the Quotation within ten (10) Business Days of receipt of the Quotation, failing which, the Request shall be deemed cancelled and the RL shall be liable for Cancellation Charges stipulated in Annex 2;
- 3.6.3. The RL shall assist NLT by providing access to the necessary existing facilities within the relevant Building or NBAP for the deployment of the Point-to-Point Connection or Mobile Point-to-Point Connection which may include (but are not limited to) the cable trunking leading to the TP location;
- 3.6.4. In the event that NLT is unable to deploy the Connection using existing facilities, NLT shall revise the Quotation to include NLT's charges for building new facilities, which shall be calculated on a Cost-Oriented Basis, and the revised Quotation shall be submitted for the RL's approval. The RL must provide its acceptance of the revised Quotation within ten (10) Business Days, failing which, the Request shall be deemed cancelled and the RL shall be liable to pay the Cancellation Charges stipulated in **Annex 2**, and all costs that NLT has already incurred under the original Quotation accepted by the RL under paragraph 3.6.2 above;
- 3.6.5. In the event that NLT has to incur any additional cost (e.g. special trunking and scaffolding) to carry out the installation work arising from the need to access rooftop sites and/or deploy specialised equipment, NLT shall recover the cost from the RL on a Cost-Oriented Basis; and
- 3.6.6. The RL shall secure access for NLT to carry out any works and to liaise with building management where necessary.
- 3.7. For the avoidance of doubt, the RL shall not be permitted to submit any self-provide order under this Agreement.
- 3.8. In the event that the RL cancels the Request for a Connection after the commencement of the site survey referred to in **paragraph 3.5** of this Annex 1 and before accepting the Quotation, the Request for the relevant Connection will be deemed to have been cancelled and the RL shall be liable for the Cancellation Charge(s) set out in Annex 2.
- 3.9. In the event that the RL cancels the Request for a Connection after accepting NLT's Quotation, the Request for the relevant Connection will be deemed to have been cancelled and the RL shall be liable for the Cancellation Charge(s) stipulated in Annex 2.

4. SERVICE LEVEL GUARANTEES

- 4.1. NLT will provide the service level guarantees set out below (collectively the "**Service Level Guarantees**"):
- 4.1.1. NLT shall offer a service level availability of 99.99% per month for each Connection; and
- 4.1.2. NLT shall restore any fault within a standard recovery time of six (6) hours.
- 4.2. If NLT fails to meet the service level availability set out in **paragraph 4.1.1** above for a particular month and such failure is solely caused by NLT, its contractors and/or suppliers, NLT shall offer to rebate the RL ten per cent (10%) of the MRC for each affected Connection. The calculation of the rebate shall be determined according to the rules set out in **Annex 6** of this Agreement. An illustration of the calculation method is set out in **Annex 8**.
- 4.3. If NLT fails to meet the standard recovery time set out in **paragraph 4.1.2** above and such failure

is solely caused by NLT, its contractors and/or suppliers, NLT shall provide a remedy in the form of a rebate to the RL for each affected Connection that fails to meet the standard recovery time of six (6) hours, and the rebate shall be determined according to the rules set out in **Annex 6** of this Agreement. An illustration of the calculation method is set out in **Annex 8**.

- 4.4. A claim by the RL shall be made in writing within thirty (30) Calendar Days of the completion of the relevant calendar month on which the Service Level Guarantees are measured. The amount in respect of any claim shall be paid to the RL in the form of a rebate. The RL acknowledges that a failure to make a claim within the specified timeframes under this paragraph means that the RL waives any entitlement to the relevant rebate. NLT will respond within (30) Calendar Days from the date of claim stating whether the claim by the RL: is (a) valid for rebates; or (b) is an invalid claim. Where NLT assessed that the RL's claim is invalid, NetLink Trust will explain its basis or require the RL to provide additional information. For valid claims submitted within the timeframe, NLT shall provide the rebate in its next invoice.
- 4.5. If the RL is entitled to a rebate pursuant to the claim made under **paragraph 4.4**, NLT shall issue a credit note for the amount of the rebate due to the RL within thirty (30) Calendar Days of the date of the RL's claim.
- 4.6. The Service Level Guarantees and rebates provided by NLT are of an ex-gratia nature and personal to the RL and are non-transferable.
- 4.7. Notwithstanding anything in this Agreement, the Service Level Guarantees shall not apply in any of the following circumstances:
 - (a) fault due to any equipment, wiring and/or cabling owned or operated by the RL or on behalf of the RL;
 - (b) restoration of the Connection where any site-coordination meeting, fault investigation, Joint Investigation Meeting or fault identification coordination meeting is involved, except where (i) the fault was caused by NLT; and (ii) the RL has not contributed to any delay in setting up the meeting. Notwithstanding the above, in determining whether the Service Level Guarantees have been met by NLT, the time taken from the start of arranging any site-coordination meeting, fault investigation, Joint Investigation Meeting or fault identification coordination meeting up to the end of the meeting, shall always be excluded;
 - (c) NLT is unable to obtain or maintain any licence or permission necessary to the restoration of the Connection despite using its best endeavours to obtain expeditiously or maintain such licence or permission. Notwithstanding the above, in determining whether the Service Level Guarantees have been met by NLT, the time taken by NLT to obtain or maintain any licence or permission necessary to the restoration of the Connection shall always be excluded. Provided that in the event that the RL maintains the licence/permission, NLT will provide evidence that it has used such best endeavours;
 - (d) NLT has difficulty accessing the TP location despite using its best endeavours to expeditiously remedy the access difficulties, provided always that in the event there is a dispute as to whether NLT has used its best endeavours to expeditiously remedy the access difficulties, NLT will provide evidence that it has used such best endeavours;
 - (e) delay in the restoration of the Connection caused by events beyond the reasonable control of NLT and its suppliers and contractors;
 - (f) fault is reported by the RL but no fault is found or confirmed after due and careful investigation, and verification by NLT;
 - (g) NLT is required to carry out service interruption, and RL has been given prior written

notification of the same;

- (h) NLT is required to carry out fibre diversion at the request of the Government Agencies, private developers or other relevant parties and the RL has been given prior written notification of the same; and
 - (i) where the RL or MCST (of the development where the Connection is to be provisioned) requires customised arrangements or conditions to be fulfilled before access is granted to NLT, but such exclusion shall only be limited to the time taken for access to be granted to NLT.
- 4.8. The estimated period required by NLT to provision a Connection using the existing NLT infrastructure is 1 calendar month, and approximately 3 calendar months are required to provision a Connection where there is no existing NLT infrastructure. The RL acknowledges and accepts that the aforementioned timelines are purely indicative, and that the actual time required to provision each Connection shall depend on the availability of access to the TP location, actual site conditions, the grant of the necessary licences, permits, consents, waivers and authorization by the relevant building management or any other party, and any unforeseen circumstances beyond the control of NLT.
- 4.9. Notwithstanding anything in this Agreement, NLT shall not be bound by the aforementioned indicative timelines, and the RL shall not be entitled to make any claims arising out of the failure of NLT to meet the service activation period in relation to any request for a Connection under this Agreement.
- 4.10. If duplicate claims for the same failure to meet the Service Level Guarantees are made under **paragraph 4.4** and NLT subsequently issues credit notes for the amount of the rebates claimed, NLT shall notify the RL accordingly within thirty (30) Calendar Days on which the most recent credit note was issued, and shall be entitled to recover from the RL an amount that is equivalent to the duplicate rebates credited to the RL.

5. FAULT REPORTING

- 5.1. The RL shall report all faults by filling in the form set out in **Annex 7** of this Agreement and emailing the same to NLT's Fault Team at [REDACTED]. The RL must then follow up with a telephone call to Fault Team at telephone no. [REDACTED].
- 5.2. Upon receipt of a fault report from the RL in accordance with **paragraph 5.1** above, NLT shall investigate the cause of the fault and shall provide periodic updates to RL on the status of the fault rectification.
- 5.3. The calculation of the total time taken for the investigation to be completed will exclude the period during which NLT is not able to obtain permission to access or work in a Building or NBAP due to the Building or NBAP being inaccessible.
- 5.4. If, following the investigation, NLT determines that:
- (a) There is no fault in NLT's Network; or
 - (b) The fault resides in NLT's Network and such fault is not evidently caused by NLT or its contractors or NLT's Network or equipment,

then, upon completion of the fault investigation by NLT, NLT shall charge the RL the fault investigation charge specified in **Annex 6** of this Agreement.

6. FEES & CHARGES

- 6.1. The fees set out in Annexes 2, 3 and 4 shall apply for all Connections provided by NLT pursuant to this Agreement. In the event that any charges for services are not stipulated in Annexes 2, 3 and 4, the charges for such services as set out in Schedule 15 of the Approved ICO shall apply.
- 6.2. The fees set out in Annexes 2, 3 and 4 shall be valid until the occurrence of the earlier of the following events:
- (a) the expiration of five (5) years from the effective date of the Agreement; or
 - (b) until such time the Authority reviews the prices of the Mandated Services offered by NLT pursuant to the terms of the Approved ICO. In the event there is any change to such prices that affects the fees set out in Annexes 2, 3 and 4, NLT shall notify the RL in writing, upon which NLT shall have no obligation to provide any further Point-to-Point Connections or Mobile Point-to-Point Connections at the fees set out in Annexes 2, 3 and 4. The RL acknowledges that there may be a need to enter into a new agreement on revised tariffs and terms and conditions approved by the Authority at the relevant time, in which case this Agreement shall be terminated by mutual agreement without liability on the part of either Party, save that both Parties shall settle any payments which have accrued at the time of termination, and that, in the event that this Agreement is terminated during the Commitment Period, the RL shall be liable to pay an amount equivalent to the Minimum Revenue Commitment less the cumulative MRC billed during the period between the Effective Date and the effective date of termination.
- 6.3. NLT will review the fees set out in Annexes 2, 3 and 4 periodically and may revise the fees at its discretion following such review, subject to IMDA's approval. In the event there is a fee revision approved by IMDA, NLT shall notify the RL of the revised fees in writing and the revised fees shall take effect two (2) months from the date of such notification, subject to any direction by IMDA. In such event, the Parties shall enter into good faith discussions in an effort to reach a mutual agreement on a new definition of the Minimum Volume Commitment.

7. ADDITIONAL TERMS AND CONDITIONS

- 7.1. Each Point-to-Point Connection activated by the RL shall be subject to a minimum contract term of twenty-four (24) months, commencing from the Ready For Service (RFS) date as advised by NLT (the "**Minimum Connection Term**").
- 7.2. The termination of any active Point-to-Point Connection before the expiry of the Minimum Connection Term shall be subject to an Early Termination Charge that is equivalent to the total aggregate Monthly Recurring Charge which would have been payable during the remainder of the Minimum Connection Term.
- 7.3. The RL shall obtain all necessary approvals, permits and consents (including approvals from the relevant building manager) at its own cost to facilitate NLT's access to all necessary areas within the relevant Building or NBAP, and all works relating to the Connection (including but not limited to any subsequent repair, replacement or upgrade to any equipment or facility forming part of the Connection).
- 7.4. Upon termination of an existing Connection at any time, including termination of a Point-to-Point Connection before the expiry of the Minimum Connection Term, the RL shall arrange for the Removal of the TP or any part of the Network as currently installed, and shall bear the charges

relating to any reinstatement work to be performed by NLT in relation to the Removal at the RL's request. Such reinstatement charges will be recovered by NLT from the RL on a Cost-Oriented Basis. For the avoidance of doubt, this paragraph shall survive the expiration or earlier termination of this Agreement.

- 7.5. For the avoidance of doubt, all ducts and manholes through which NLT's fibre cables are laid for the purposes of fulfilling any request by the RL pursuant to this Agreement shall belong to NLT and the RL shall take all steps that may be necessary to ensure ownership of these ducts and manholes vests in NLT at no additional cost to NLT.
- 7.6 Upon request by NLT, the RL shall submit supporting evidence to show that each Mobile Point-to-Point Connection is used only for the purpose of Mobile Network Deployment by connecting to a mobile base transmission station that belongs to the RL. The RL shall provide NLT with all reasonable assistance (including but not limited to obtaining the necessary approvals, permits and consents to access any areas within the relevant building) in the event that NLT wants to conduct on-site verification that the Mobile Point-to-Point Connection has been deployed in such a manner as specified herein.
- 7.7. The rights and remedies of NLT provided in this Agreement are cumulative and not exclusive of any other rights or remedies (whether provided by law or otherwise).
- 7.8. Schedule 16 of the Approved ICO shall apply to this Agreement.

SLG REBATES & FAULT IDENTIFICATION CHARGE

A1. REBATES FOR POINT-TO-POINT CONNECTIONS FOR MOBILE NETWORK DEPLOYMENT AND ENTERPRISE SERVICES

Subject to **paragraph 4.7** of Annex 1, NLT shall compensate the RL a rebate (as detailed in table below) in the event NLT fails to meet the standard recovery time of six (6) hours for each affected Connection for a particular month.

Recovery Time	Percentage of MRC Amount Credited for each affected Connection that fails to meet the standard recovery time of six (6) hours
< 6 hours	0%
Between 6 hours to < 12 hours	10%
Between 12 hours to < 18 hours	20%
Between 18 hours to < 24 hours	60%
24 hours and above	100%

A2. SLA REBATES FOR POINT-TO-POINT CONNECTIONS FOR MOBILE NETWORK DEPLOYMENT AND ENTERPRISE SERVICES

The service level availability for each Point-to-Point Connection for Mobile Network Deployment or Enterprise Services is calculated as follows:

$$\frac{(A - B)}{(A)} \times 100\%$$

Where A = 24 hours x number of days for the month (in hours); and

B = total network outage time for each affected Point-to-Point Connection for Mobile Network Deployment or Enterprise Services in the same month (in hours)

Subject to **paragraph 4.7** of **Annex 1**, the total network outage time is the sum of all minutes for which each of the RL's affected Point-to-Point Connection for Mobile Network Deployment or Enterprise Services is unavailable measured from the time each fault is reported by the RL to the time NLT confirms that the fault is restored, excluding fault incidents where NLT is prevented or restricted from restoring the service owing to matters that are not within NLT's control.

B1. REBATES FOR MOBILE POINT-TO-POINT CONNECTIONS

Subject to **paragraph 4.7** of Annex 1, NLT shall compensate the RL a rebate (as detailed in table below) in the event NLT fails to meet the standard recovery time of six (6) hours for each affected Connection for a particular month.

Recovery Time	Percentage of MRC Amount Credited for each affected Connection that fails to meet the standard recovery time of six (6) hours
< 6 hours	0%
Between 6 hours to < 12 hours	10%
Between 12 hours to < 18 hours	20%
Between 18 hours to < 24 hours	60%
24 hours and above	100%

For the avoidance of doubt, the MRC used in above standard recovery time computation will be \$450.

B2. SLA REBATES FOR MOBILE POINT-TO-POINT CONNECTIONS

The service level availability for each Mobile Point-to-Point Connection is calculated as follows:

$$\frac{(A - B)}{(A)} \times 100\%$$

Where A = 24 hours x number of days for the month (in hours); and

B = total network outage time for each affected Mobile Point-to-Point Connection in the same month (in hours)

Subject to **paragraph 4.7 of Annex 1**, the total network outage time is the sum of all minutes for which each of the RL's affected Mobile Point-to-Point Connection is unavailable measured from the time each fault is reported by the RL to the time NLT confirms that the fault is restored, excluding fault incidents where NLT is prevented or restricted from restoring the service owing to matters that are not within NLT's control.

For the avoidance of doubt, the MRC used in above SLA rebate will be \$450.

C. FAULT IDENTIFICATION CHARGE

Description	Charges (\$\$)
Minimum charge (per visit up to first two hours)	\$64

Subsequent hourly blocks will be charged according to the rates listed below, subject to a cap of four hours.

Period	Time	Rate (\$\$/hr)
Monday to Friday	9.00 am to 5.00 pm	\$20
Monday to Friday	After 5.00 pm to 9.00 am the next day	\$30
Saturday	9.00 am to 1.00 pm	\$20
Saturday	After 1.00 pm to 12.00 am the next day	\$30

Sundays and Public Holidays	12.00 am to 9.00 am the next day	\$40

For avoidance of doubt, the maximum quantum for the fault identification charge will be based on the first four (4) hours of fault investigation.

ANNEX 8

ILLUSTRATION OF HOW THE REBATE / BILLING WILL BE DISPERSED / CHARGED AFTER 24 MONTHS IN RELATION TO THE MINIMUM VOLUME COMMITMENT

With reference to paras 2.9 and 2.11 of Annex 1, the following illustrations provide examples of how the Check-in Payment and Check-in Rebate can be calculated under the specific circumstances described herein. These illustrations are provided only for clarification purposes. NLT will do a reconciliation of the total number of active Mobile Point-to-Point Connections as of the last day of each calendar month period commencing after the 24th month i.e. last day of 25th month, 26th month, 27th month, and so on.

- In the event that, on the last day of 25th month, RL has 810 active Mobile Point-to-Point Connections: NLT will bill $810 \times \$A = \$810A$, but based on the table set out in para 2.11 of Annex 1, volume from 801 – 1000 is charged at the lower amount $\$B$. As such, NLT will raise a credit for Check-in Rebate of $810 \times (\$A - \$B)$.
- In the event that, on the last day of 26th month, RL's total active Mobile Point-to-Point Connections drops to 780 connections (i.e. below the Minimum Volume Commitment of 800): NLT will invoice the difference of $20 \times \$A = \$20A$ as Check-in Payment. This is on top of the $780 \times \$A = \$780A$ that NLT has invoiced as MRC for that month.
- In the event that on the last day of 27th month, ■■■ total active Mobile Point-to-Point Connections increases to 1,100: Based on the table set out in para 2.11 of Annex 1, volume from 1,001 to 1,200 is charged at $\$C$. As such, NLT will raise a credit for Check-in Rebate of $1,100 \times (\$A - \$C)$ will be raised. This is on top of the $1,100 \times \$A = \$1,000A$ that NLT has invoiced as MRC for that month.
- NLT will issue an invoice for the total Check-in Payment payable by the RL for the 26th month. The invoice will also reflect the Check-in Rebate for the 25th month and 27th month.

ILLUSTRATION: SLG REBATES COMPUTATION

REBATES FOR POINT-TO-POINT CONNECTIONS FOR MOBILE NETWORK DEPLOYMENT AND ENTERPRISE SERVICES

The following illustration provides an example of how the rebate described in **paragraph 4.2 of Annex 1** will be calculated under the specific circumstances described herein. This illustration is provided only for clarification purposes.

Subject to **paragraph 4.7** of Annex 1, NLT shall compensate the RL a rebate (as detailed in table below) in the event NLT fails to meet the standard recovery time of six (6) hours for each affected Connection for a particular month.

Recovery Time	Percentage of MRC Amount Credited for each affected Connection that fails to meet the standard recovery time of six (6) hours
< 6 hours	0%
Between 6 hours to < 12 hours	10%
Between 12 hours to < 18 hours	20%
Between 18 hours to < 24 hours	60%
24 hours and above	100%

In the event that a Point to Point Connection is recovered by the 7th hour, the percentage of MRC that RL can claim is 10% x \$X (MRC of Point to Point Connection) = \$X/10

SLA REBATES FOR POINT-TO-POINT CONNECTIONS FOR MOBILE NETWORK DEPLOYMENT AND ENTERPRISE SERVICES

The following illustration provides an example of how the rebate described in **paragraph 4.3 of Annex 1** will be calculated under the specific circumstances described herein. This illustration is provided only for clarification purposes.

The service level availability for each Point-to-Point Connection for Mobile Network Deployment or Enterprise Services is calculated as follows:

$$\frac{(A - B)}{(A)} \times 100\%$$

Where A = 24 hours x number of days for the month (in hours); and

B = total network outage time for each affected Point-to-Point Connection for Mobile Network Deployment or Enterprise Services in the same month (in hours)

$$\frac{[(24\text{hrs} \times 30\text{ days}) - 7\text{hrs}]}{(24\text{hrs} \times 30\text{ days})} \times 100\% = 99.02\%$$

In the event that a Point to Point Connection with a 7 hour outage for the whole month, SLA achieved is 99.02%. RL can claim 10% x \$X (MRC of Point to Point Connection) = \$X/10
