

GUIDELINES ON SUBMISSION OF APPLICATION FOR POSTAL SERVICES OPERATIONS LICENCE

1 INTRODUCTION

- 1.1 The Singapore Basic Mail Services market was liberalised from 1 April 2007. Any person providing the conveyance of letters¹ weighing 500g and below, and performing any services incidental to or in conjunction with conveyance of such letters, is required to obtain a licence from Info-communications Media Development Authority (the “**Authority**”) under the Postal Services Act (Cap. 237A) (the “**Act**”) before commencement of their services.
- 1.2 For more information on the Authority’s decision of the liberalisation of the Basic Mail Services market, please refer to the Authority’s Explanatory Memorandum at www.imda.gov.sg – “Acts -> Acts & Regulations” – “Postal”.
- 1.3 The provision of Express Letter services will continue to be class licensed under the Postal Services (Class Licence) Regulations 2005 (S 481/2005) (the “Class Licence Regulations”). The definition of Express Letter Services covered by the class licence is found in the Class Licence Regulations which are available at www.imda.gov.sg – “Regulations, Licensing and Consultations” – “Acts & Regulations”.
- 1.4 The Authority has developed these Guidelines to provide an overview of the licensing framework for potential licence applicants intending to provide postal services in Singapore.

¹ Under the Postal Services Act (CAP. 237A), a “Letter” refers to any communication in written form on any kind of physical medium to be conveyed and delivered otherwise than electronically to the person or address indicated by the sender on the item itself or on its wrapping (excluding any book, catalogue, newspaper or periodical), and includes a postal article containing any such communication. The Authority will adopt the following interpretations for book, catalogue, newspaper and periodical:

- (i) “book” refers to a written or printed work with pages bound along one side including (but not limited to) a work intended for publication and a bound set of blank sheets for writing or drawing in;
- (ii) “catalogue” refers to a catalogue of goods, services or other items;
- (iii) “newspaper” includes a newspaper as defined in the Newspaper and Printing Presses Act. The Newspaper and Printing Presses Act (Cap 206) defines newspaper as “*any publication containing news, intelligence, reports of occurrences, or any remarks, observations or comments, in relation to such news, intelligence, reports of occurrences, or to any other matter of public interest, printed in any language and published for sale or free distribution at regular intervals or otherwise, but does not include any publication published by or for the Government*”; and
- (iv) “periodical” refers to a magazine or similar periodical published at regular intervals.

2 DESCRIPTION OF POSTAL SERVICES

- 21 Postal services refer to any service for the conveyance of postal articles from one place to another by post and include the incidental services of receiving, collecting, sorting, sending, despatching and delivering such articles and any other service which relates to any of those services and is provided in conjunction with any of them.
- 22 Parties intending to provide postal services for the conveyance of letters not exceeding 500g per piece will require a Postal Services Operations (“**PSO**”) licence from the Authority. Parties intending to provide Express Letter Services are required to register with the Authority for a separate Express Letter Services class licence.
- 23 The range of postal services that may be provided under a PSO licence category includes, but is not limited to, the following²:
- (a) Conveyance, receipt, collection, sorting, sending, dispatch and delivery of letters within Singapore;

 - (c) Conveyance, receipt, collection, sorting, sending, dispatch and delivery of letters from or through Singapore (Outgoing and Transiting International Letters)
- 24 Mailroom operations can include the activities mentioned in the above paragraph 2.3. Mail operations of the following nature will require a PSO licence:
- (a) the provision of internal mailroom collection, sorting and distribution services provided to an organisation occupying multiple premises (Intra-Organisation Mailroom Service (Multiple Premises));
 - (b) the provision of internal mailroom collection, sorting and distribution services provided to an organisation and its related or affiliated organisations (Inter-Organisation Mailroom Service); and

Authority. “Direct mail” refers to “a letter consisting solely of advertising, marketing or publicity material and comprising an identical message, except for the addressee’s name, address and identifying number and any modifications which do not alter the nature of the message, which is sent to more than one addressee”.

3 GENERAL LICENSING AND REGULATORY FRAMEWORKS

Licensing Framework

- 3.1 Parties interested to apply for a PSO Licence shall submit their application for a licence to the Authority in accordance with the requirements outlined in section 4 of these Guidelines.
- 3.2 In line with the Authority’s market-based approach, applicants are free to decide on the most appropriate business model for their operations. PSO licensees are not required to provide islandwide delivery and/or collection of postal articles. However, a PSO licensee will be obliged to complete the delivery of any letters that it accepts from end-users. Likewise, there are no requirement for PSO licensees to provide international postal services if they do not choose to do so.
- 3.3 Once the licence is granted, PSO licensees will be required to seek the Authority’s prior approval for any subsequent changes to their service offerings and their postal network.
- 3.4 There is no limit on the number of PSO licences the Authority can issue.
- 3.5 The PSO licensee shall be a company incorporated under the Companies Act (Cap. 50).
- 3.6 There are no foreign equity limits imposed on PSO licensees.

Letter Box Access

- 3.7 PSO licensees will not be issued any letterbox masterdoor keys to HDB letterbox with locked apertures. However, the Authority will facilitate PSO licensee’s access to the delivery network of the designated public postal licensee (“**PPL**”), Singapore Post Ltd (“**SingPost**”), at regulated prices, terms and conditions.

Postal Network

- 3.8 PSO licensees can set up their own postal network, including posting boxes, P.O. boxes or post offices but may need to obtain all required approvals/permits from the relevant authorities for installations on public land (e.g. LTA, SLA, JTC).

Stamps and other Pre-payment Modes

- 3.9 Only designated PPLs will be authorised to issue national postage stamps³.
- 3.10 PSO licensees who wish to produce their own pre-payment impressions or stamp imprints⁴ are allowed to do so subject to the following conditions:
- (a) such impressions or imprints shall not bear the word “Singapore” in any language;
 - (b) such impressions or imprints may not be used for the transmission of international postal article within the framework of the Universal Postal Union (“**UPU**”) unless authorised by the Authority; and
 - (c) the Authority’s prior approval must be obtained for the use of each pre-payment impression or stamp imprints.

All pre-payment impressions and stamp imprints are subject to other applicable laws including the Undesirable Publications Act (Cap. 338) and must be in conformity with the applicable UPU requirements. Such pre-payment impressions or stamp imprints shall not be referred to as “postage stamps.”

- 3.11 The Authority reserves the right to reject and can require the PSO licensee to withdraw any prepayment impression or stamp imprint designs. In addition, the Authority shall reject any designs that does not comply with the Authority’s Impression, Stamp and Identifier Mark Design Guidelines (**Annex 1**).

Postal Identifier Mark

- 3.12 All PSO licensees will also be required to register their Identifier Marks with the Authority. A postal “**Identifier Mark**” means any name, number, logo, mark or design that –
- (a) is affixed to or impressed or printed on letters or their wrapping (e.g., envelopes);
 - (b) uniquely identifies that PSO licensee; and
 - (c) clearly indicates to the public that those letters have been, or are intended to be, accepted by that PSO licensee for conveyance by post.
- 3.13 The Authority will publish the Identifier Mark on the Authority’s website for public information. In addition, the Authority will also require PSO licensees to publish their Identifier Marks for public information. The Identifier Marks must be clear and legible to enable letter recipient to identify the PSO.

³ Under the UPU Convention, postage stamps are issued in each country by a competent issuing authority in conformity with the UPU Acts. Postage stamps are a manifestation of state sovereignty and constitute proof of postage as well as a source of revenue as philatelic items.

⁴ In conformity with the UPU convention, such pre-payment impressions or stamp imprints shall not be referred to as “postage stamps”.

- 3.14 PSO licensees will be required to affix a postal "Identifier Mark" on all letters it receives from its end-user. For the avoidance of doubt, where a PSO licensee conveys a letter it received from its end-user to another PSO licensee for delivery, the second PSO licensee handling the letter is not required to affix its Identifier Mark on the letter.
- 3.15 All PSO licensees shall comply with the practices, principles and requirements set out in the Impression, Stamp and Identifier Mark Design Guidelines (**Annex 1**) established and issued by the Authority from time to time.

Safeguarding of Mail Integrity

- 3.16 PSO licensees shall establish, maintain and adhere to appropriate measures to ensure that the risk of loss of, theft of, and damage to letters occurring during the receiving, collecting, sending, sorting, dispatching and delivering to the person to whom or at the premise to which it is addressed is minimised.

Other Licence Obligations

- 3.17 A template of the PSO licence is posted at <http://www.imda.gov.sg>.

Public Postal Licensee

- 3.18 Depending on the scope of their operations and the postal network setup, PSO licensees may apply to be designated as a PPL under section 6 of the Act. In order to qualify to apply to be designated as a PPL, the PSO licensee must demonstrate that its postal network is able to handle incoming and outgoing mail, both domestic and international, to all postal address in Singapore, within the existing Quality of Service ("**QoS**") established by the Authority for PPLs. For example, part of the current QoS for domestic mail requires 98% of letters to be delivered by the next working day and the remaining by the following day. For the full details of QoS, please refer to the posted QoS requirements at www.imda.gov.sg – "Regulations, Licensing and Consultation -> ICT Standards and Quality of Service" – "Quality of Service".
- 3.19 PPLs are required to perform a set of universal service obligations ("**USO**"), for the provision of island-wide letter collection and delivery services to any person who request for such services. PPLs will also be required to establish island-wide post boxes for collection of letters, post offices, and sorting facilities as determined by the Authority. PPLs will enjoy certain safeguards under the Act to facilitate the performance of their USO.
- 3.20 Currently, SingPost is the PPL that is designated as the postal administration for Singapore in the UPU. Should another PPL request to be the designated as the postal administration for Singapore in the UPU, the Authority will evaluate the merits of its requests accordingly and will also take into consideration whether the UPU allows for two licensees to be designated at any one time.
- 3.21 In the interest of ensuring mail security and integrity in the public postal system and safeguarding consumers' interests, the Authority will currently not allow multiple PPLs to have access to the HDB letterbox masterdoor keys.

The Authority will instead facilitate PSO and PPL's access to SingPost's delivery network at regulated prices, terms and conditions. Competing PSOs and PPLs can also attempt to deliver mail to letterboxes with open apertures or to the recipients' premises.

- 322 PPLs can issue stamps imprints and use prepayment impressions as mentioned in the above paragraph 3.10. However, only one PPL, SingPost, is designated to issue national stamps. As national stamps carry the name of the country and not the name of the PPL, it may not be feasible to allow multiple PPLs to issue the same set of national stamps for pre-payment purposes. It will cause consumer confusion and significant difficulty in ensuring that the correct PPL is being paid for the services to be provided.
- 323 For greater operational efficiency and in the public interest, a single national postal code system will be adopted. SingPost will administer and manage the national postal code system. The Authority will not allow another PPL to formulate its own postal codes for conveyance of letters in Singapore. However, the Authority will require SingPost to provide all PSOs access to the national postal code database on request. Further details can be found in the Code of Practice for Common Operational Procedures in the Provision of Postal Services (the "**Postal Operations Code**") [to be] issued by the Authority.
- 324 In both the PSO and PPL licence, the Authority reserves the right to impose certain basic service obligations where necessary.

Licence Evaluation

- 325 The Authority will evaluate a PSO licence application based on its merits. The Authority will take into account the following in its evaluation of the merits of an applicant's proposal:
- (a) vision of the applicant and how this will contribute towards the public and the economy of Singapore;
 - (b) organisational structure and financial capability and strength of the applicant;
 - (c) business and competition strategies of the applicant for the provision of services; soundness of the applicant's business plans and capability to implement the plans;
 - (d) ability in ensuring security and integrity of postal articles; and
 - (e) any other information provided by the applicant.

The Authority will consider the benefits that will be brought by the applicant to end-users and the Singapore economy as a whole in terms of the investments in Singapore; level of service innovation and responsiveness; range and choice of products and services offerings; competitive pricing; level of quality of service⁵ and level of customer service support; and resource limitations and physical constraints, before awarding a licence to an applicant.

⁵ The Authority currently only imposes QoS requirements on designated Public Postal Licensees that are mentioned in paragraph 3.14 of these guidelines.

Please refer to **Annex 2** for details of the basic information to be provided in PSO licence applications.

Regulatory Framework

- 326** All PSO licensees including PPLs will be regulated in accordance with the licensing and regulatory frameworks established by the Authority, which are formulated under the provisions of the Act. Licensees are also required to comply with the Code of Practice for Competition in the Provision of Postal Services ("**Postal Competition Code**"), which aims to ensure the development of a fair and competitive postal environment in Singapore. Other codes of practice and regulatory guidelines include the Postal Operations Code, Accounting Separation Guidelines and minimum Quality of Services standards. Interested parties may refer to the Authority's website for the copy of a generic PSO licence or the licences issued to other PSO licensees, the Postal Competition Code, the Postal Operations Code and other relevant guidelines issued by the Authority⁶.
- 327** The Authority will continue to review and refine the postal framework and codes of practice to ensure their relevance, taking into consideration market trends and developments.

Licence Fees and Licence Duration

- 328** In general, an annual licence fee for PSOs will be payable by each licensee in a sum amounting to 0.4% of the licensee's Annual Gross Turnover ("**AGTO**")⁷, subject to a minimum amount which depends on the services offered. There is no initial one-time licence fee payable. The duration of the licence depends on the scope of the licensee's operations. Successful applicants for the PSO licence will be required to pay the relevant licence fees as stipulated below:

| Licence | Licence Fee |
|---|---|
| <ul style="list-style-type: none">PSO designated as PPL | Initial Fee: None Annual Fee: 0.4% AGTO, subject to a minimum of S\$150,000 per year Licence Duration: 20 ⁸ years, renewable for a further period as the Authority deems appropriate |

⁶ The Authority's website address is www.imda.gov.sg. The documents can be found under the Regulations, Licensing and Consultations section.

⁷ Annual Gross Turnover (AGTO) is the annual fair value of the consideration received or receivable for licensable activities taking into account the amount of any trade discounts and volume rebates allowed by the enterprise.

For the computation of the annual licence fee, licensees are required to submit the AGTO that is audited by a certified public accountant using a special purpose audit using auditing standards SSA 800. The template of the audited AGTO statement to be submitted is attached in **Annex 4**.

⁸ With effect from 1 April 2017, the licence duration for a PSO designated as a PPL is hereby revised to 20 years.

Performance Bond

- 3.29 PSO licensees shall provide the Authority with an ongoing performance bond made in favour of the Authority for a sum of \$200,000 if only domestic postal services are provided; or a sum of \$300,000 if both domestic and international postal services are provided, in accordance with the specimen Banker’s Guarantee specified in **Annex 3**. The performance bond shall cover the material commitments and obligations of service provision. The Banker’s Guarantee is required for the duration of the licence and shall be maintained at the amounts specified all times.
- 3.30 Should the Authority forfeit the performance bond of a PSO licensee due to the licensee’s failure in meeting its obligations under the licence, the PSO licensee will be required to provide a fresh banker’s guarantee of the original amount to the Authority within 28 days of the forfeiture.
- 3.31 For PSOs designated as PPLs, because of their USO and the higher investments already made to set up extensive infrastructure to provide island-wide collection and delivery services, the Authority will not require the ongoing performance bond as mentioned in paragraph 3.29 to be provided to the Authority.
- 3.32 However, the Authority will instead require the PPL to rollout their networks and provide services in accordance with the commitments stated in their licence applications. Each PPL shall provide the Authority with a performance bond for a sum amounting to 5% of its total budgeted capital investment as committed in its licence application, in accordance with the specimen Banker’s Guarantee specified in **Annex 3**. The performance bond shall cover the material obligations of rollout, service provision and commitments. Upon completion of the rollout milestones and the Authority’s acceptance of the same, the Banker’s Guarantee will be returned to the PPL.

INDEPENDENT AUDITOR'S REPORT ON LICENSEE'S ANNUAL GROSS TURNOVER

[To the Board of Directors of _____ (Company) or Other Appropriate Addressee]

Opinion

We have audited the Schedule of the Annual Gross Turnover ("AGTO")¹⁰, in relation to all licensable activities under the [please insert type of licence¹¹] granted to the [Licensee's Name] (the "Licensee") by the Info-communications Media Development Authority ("IMDA"), for the period from [date] to [date] (the "Schedule").

In our opinion, the AGTO totaling [insert amount] in the Schedule is prepared, in all material respects, in accordance with the attached Basis of Preparation.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Schedule* section of our report. We are independent of the Licensee in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to the attached Basis of Preparation to the Schedule, which describes the basis of accounting. The Schedule is prepared to assist the Licensee to meet the requirements of the IMDA in connection with the determination of the Licensee's annual licence fee by the IMDA. As a result, the Schedule may not be suitable for another purpose. Our report is intended solely for the Licensee and the IMDA and should not be distributed to or used by parties other than the Licensee or the IMDA. Our opinion is not modified in respect of this matter.

¹⁰ The AGTO refers to the annual fair value of the consideration received or receivable for licensable activities taking into account the amount of any trade discounts and volume rebates allowed by the [name of Licensee].

¹¹ Types of Licences include, Facilities-Based Operations, Services-Based Operations (Individual), Postal Services Operations, Nationwide Free-to-Air TV Services, Nationwide Free-to-Air Radio Services, Nationwide Subscription TV Services, Niche TV Services.

Responsibilities of Management and Those Charged with Governance¹² for the Schedule

Management is responsible for the preparation of the Schedule in accordance with the Basis of Preparation, and for such internal control as management determines is necessary to enable the preparation of the Schedule that is free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing the Licensee's financial reporting process.

Auditor's Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the Schedule is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Schedule.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Schedule, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Licensee's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by management.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to

¹² Or other terms that are appropriate in the context of the engagement.

communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards¹³.
